EMPLOYMENT

Summer 2022: NuLeaf Landscaping Company

- Worked as a landscape crew assistant as well as independently maintaining the dog trash cans placed all around the town of Celebration

Summer 2023: McDonalds:

- Worked in customer-facing roles such as the counter and the drive-through, this grew my ability to communicate, the ability to work within a team, as well as my problem-solving skills. I was also looked at as a future manager during my one summer working there.

Summer 2024: Campus Customs:

- This job placed me in a retail and warehouse setting, in another team setting. I was responsible for a variety of tasks, the most notable being to learn the software controlling the production machines and training other employees in their use, and the

occasional fix to IT related issues. This job continued to improve my problem-solving skills, teamwork, and ability to communicate.

EDUCATION

Florida Southern College:

- Cumulative GPA: 3.9
- Courses: Data Structures, Object Oriented Programming, Analysis of Algorithms, Software Engineering, Combinatorial Game Theory, Computer Organization and Architecture, Microcontroller Programming, Introduction to Web Development
- Currently Enrolled In: Introduction to Artificial Intelligence, Web Frameworks and Architecture, Programming Languages

ADDITIONAL SKILLS

Communication, Problem Solving, Teamwork, Leadership, Analytical Skills
